

CURRICULUM VITAE
JENNIFER L. POWERS CARSON, Ph.D.

Jennifer Powers Carson
2/8/2023
8 FEB 2023

PRESENT POSITION:

2020-present Associate Professor of Medicine
2018-present Director, Core Laboratory for Clinical Studies (CLCS)

EDUCATION:

1988 B.S. Chemistry, Summa Cum Laude. Minors: Biology, Mathematics
Union University, Jackson, TN
1993 Ph.D. Chemistry
Dissertation Topic: Cellular and Enzymatic Studies with Novel Adrenergic Analogs and Effectors.
Minor Areas: Analytic, Organic
Advisor: Dr. Sheldon W. May
Georgia Institute of Technology, Atlanta, GA
2014-2016 Clinical Chemistry Fellowship,
Department of Pathology, University of Utah, Salt Lake City, UT

Additional Training:

1996 Pharmacology for Chemists. A three-day American Chemical Society short course, Orlando, FL.
2006 Modeling Biomolecules, a week-long workshop at the Modeling Biomolecules Center at Jackson State University, Jackson, MS.
2006 Residential School on Medicinal Chemistry, a week-long course at Drew University, Madison, NJ.
2012 Fundamentals of Molecular Pathology, a nine-lesson on-line continuing education course from the American Association for Clinical Chemistry.
2013 A Practical Guide to LC-MS/MS for the Clinical Laboratory, Short Course, American Association of Clinical Chemists Conference, Houston, TX.
2016 Clinical Proteomics, 8 CE unit short course during Mass Spectroscopy: Applications to the Clinical Lab Conference, Palm Springs, CA.
2016 Introduction to Quantitative Proteomics, 8 CE unit short course during Mass Spectroscopy: Applications to the Clinical Lab Conference, Palm Springs, CA.
2017 Practical LC-MS Maintenance and Troubleshooting, short course, Mass Spectroscopy: Applications to the Clinical Lab, Palm Springs, CA.
2017 Clinical Laboratory Leadership and Management, AACC Online Course, 12 CE hours.
2018 Getting Started with Quantitative LC-MS/MS in the Diagnostic Laboratory, Applications to the Clinical Lab Conference, Palm Springs, CA.

PREVIOUS ACADEMIC POSITIONS / EMPLOYMENT:

1985-1988 Lab Assistant, Department of Chemistry and Physics
Union University, Jackson, TN
1987 Summer Undergraduate Research Assistant, Department of Chemistry
Advisor: Dr. Raymond F. Borkman
Georgia Institute of Technology, Atlanta, GA
1988-1993 Graduate Teaching Assistant, Department of Chemistry
Georgia Institute of Technology, Atlanta, GA
1993-1994 Temporary Assistant Professor of Chemistry, Department of Chemistry & Biochemistry
Kennesaw State University, Kennesaw, GA
1994-1999 Assistant Professor of Chemistry, Department of Chemistry & Biochemistry
Kennesaw State University, Kennesaw, GA

- 1999-2008 Associate Professor of Chemistry & Biochemistry, Department of Chemistry & Biochemistry
Kennesaw State University, Kennesaw, GA
- 2008-2014 Professor of Chemistry, Department of Chemistry & Biochemistry
Kennesaw State University, Kennesaw, GA
- 2016-2020 Assistant Professor of Medicine; Department of Medicine; Division of Endocrinology, Metabolism and Lipid Research
Washington University, Saint Louis, MO

Sabbatical and Summer Experiences:

- 1995, 1996 Guest Researcher, Pharmacology Department, Emory University, Atlanta, GA
Studied NMDA-type glutamate receptors and mutants to obtain a better understanding of structure and function in response to spermine and pH changes.
- 2013 Guest Researcher, Centers for Disease Control & Prevention (NCEH), Atlanta, GA
Protein Biomarkers Lab/Clinical Chemistry Group
Improved tryptic digest conditions and developed separation conditions to isolate hemoglobin adducts from hemoglobin using ion-exchange chromatography. Quantified tryptic peptides using LC-MS/MS techniques.

CLINICAL TITLE AND RESPONSIBILITIES:

- 2016-6/30/18 Assistant Director, Core Laboratory for Clinical Studies
Ensure accurate and timely results for lab testing for clinic and research specimens, ensure compliance with state and federal regulations (CAP, CLIA) regarding laboratory result testing, reporting and safety, make decisions on new laboratory equipment and tests, ensure proper training and education of laboratory staff
- 07/01/18-present Director, Core Laboratory for Clinical Studies
Ensure that quality laboratory testing is performed in an accurate and timely manner according to verified protocols for clinic and research specimens; provide consultation with physicians and researchers as necessary regarding test methods or results; perform regular review of quality control data and proficiency testing data for all CAP/CLIA regulated analytes; ensure compliance with state and federal regulations regarding general laboratory testing and safety requirements, ensuring staff are properly certified and continually trained and all instruments and reagents are appropriately maintained and stored; provide pricing quotations and obtain IRB approval for contracted studies with outside researchers.

TEACHING TITLE AND RESPONSIBILITIES:

- 1993-2014 Temporary/Assistant Professor/Associate Professor/Professor of Chemistry, Department of Chemistry & Biochemistry, Kennesaw State University, Kennesaw, GA
Lower Level Undergraduate: Fundamentals of Chemistry & Lab, Introduction to Organic and Biochemistry & Lab, General Chemistry II.
Upper Level Undergraduate: Biochemistry I and II, Biochemistry Laboratory, Advanced Topics in Biochemistry, Advanced Biochemistry Laboratory; Medicinal Chemistry; Chemical Literature, Culture and Chemistry: Pharmaceutical Sciences in Puerto Rico.
- 2014-2016 Clinical Chemistry Fellow, Department of Pathology, Univ. of Utah, Salt Lake City, UT
Lectures given in Univ. of Utah courses and Rounds:
Pathology Resident Rounds (numerous)
Clinical Chemistry Correlations (numerous)

Acids, Bases, and Buffers (PATH 3200 – Spring 2015, Spring 2016)
Clinical Enzymology (PATH 6900 – Fall 2015)

2016-present Assistant/Associate Professor, Division of Endocrinology, Metabolism, and Lipid Research

Participate in training of residents through attendance and discussion in courses, case discussions, and research seminars.

Presented a research seminar entitled “Alternate Biomarkers for Management of Diabetes during Pregnancy,” March 2020.

Participate in education of laboratory staff (Core Laboratory for Clinical Studies) by preparing and giving quarterly lectures on relevant topics to our laboratory testing.

2019-present Guest Lecturer, Department of Pathology & Immunology, Washington University in St. Louis

Teach lectures for residents and fellows:

1. Drug Metabolism; 2. Therapeutic Drug Monitoring (TDM); 3. Porphyrins & Porphyrrias; 4. Enzyme Kinetics; 5. Pharmacokinetics

UNIVERSITY COMMITTEES AND SCHOOL OF MEDICINE APPOINTMENTS:

1993-2014 Student Affiliates of the American Chemical Society Faculty Advisor, Learning Outcomes Committee, Assessment of Learning Committee, Department Tenure and Promotion Committee, Department Faculty Council, Science and Math Elections Committee, Science and Math Curriculum Committee, Science and Math Tenure and Promotion Committee, Chair
Search Committee, New Building/Move-In Committee

BOARD CERTIFICATION:

2016 American Board of Clinical Chemistry, Certificate #1188

HONORS AND AWARDS:

1998 Invited guest, Mu Rho Sigma Faculty Appreciation Tea
1998 Who's Who Among America's Teachers
2002, 2004 Nominated for College of Science and Mathematics Teaching Award
2004 College of Science and Mathematics Advising Award
2004 Nominated for College of Science and Mathematics Service Award
2004 Who's Who Among Executives and Professionals
2006 Nominated for College of Science and Mathematics Teaching Award
2009 Union University Chemistry Department Alumni Award
2010 Georgia Local Section American Chemical Society Service Award
2015 Paul E. Strandjord Young Investigator Award
2015, 2016 National Academy of Clinical Biochemistry Distinguished Abstract Award
2022 AACC Academy Distinguished Abstract Award

Release Time and Travel Awards:

1998 Grant Writing Release Time Award
2002 Faculty Development Funds
2013 CETL Semester Sabbatical
2017, 2018 Lab Director Travel Grant (Association for Mass Spectrometry: Applications to the Clinical Lab)

EDITORIAL RESPONSIBILITIES:

1995 – 2014 Peer-Reviewer

McGraw Hill, Pearson/Benjamin Cummings, Oxford Univ. Press, John Wiley & Sons, Saunders College Publishing, Chemical Education Resources, Blackwell Publishing, Cengage, Journal of Chemical Education, Current Drug Delivery, Journal of Open Enzyme Inhibition

2018 – present Peer-Reviewer

Journal of Biological Education, Journal of Applied Laboratory Medicine, Clinical Toxicology, Clinical Biochemistry, Journal of Mass Spectrometry & Advances in the Clinical Lab, Endocrine Practice, Journal of Chemical Education

NATIONAL PANELS, COMMITTEES, BOARDS

2017-2021 Clinical & Laboratory Standards Institute Document Development Committee Volunteer (C64: Quantitative Measurement of Proteins and Peptides by Mass Spectrometry)

2020 -present Treasurer, AACC, Division of Endocrinology

COMMUNITY SERVICE CONTRIBUTIONS:

1998, 2003, 2010 Conference Organizer

Southeastern Undergraduate Research Conference, Kennesaw State Univ. (1998, 2003, 2010)
Southeastern Regional American Chemical Society Conference (SERMACS 2003), Atlanta, GA

2017 Beta Tester for American Association of Clinical Chemistry's Learning Lab

<https://www.aacc.org/education-and-career/learning-lab>

2020 Mini-Review of J Clin Endocrinol Metab paper for AACC 2020 Endocrine Division Meeting

PROFESSIONAL SOCIETIES AND ORGANIZATIONS:

1989-present American Chemical Society

2006-2009 American Chemical Society, Georgia Section, Treasurer

2012-present American Association for Clinical Chemistry (AACC)

2017-2022 Member, Academy of Clinical Laboratory Physicians and Scientists (ACLPS)

MAJOR INVITED LECTURESHIPS: N/A

CONSULTING RELATIONSHIPS AND BOARD MEMBERSHIPS: N/A

RESEARCH SUPPORT:

Past

a. Governmental

- National Science Foundation, Instrumentation & Laboratory Improvement Grant
1998-1999
PI Patricia H. Reggio, Co-PI **Jennifer Powers**
\$62,245
- National Science Foundation Adaptation & Implementation Grant, DUE #9920288
1999-2001
PI Vicky L.H. Bevilacqua, Co-PI **Jennifer Powers**
\$45,023
- NIH S10OD027006 (**Powers, PI**)
08/09/19-08/08/21 (no cost extension)
Acquisition of a Single Molecule Counting Platform for Use in Quantifying Low Abundance Signaling Molecules
\$94,508
- NIH 2P30DK020579-41 (**Semenkovich, PI**)

12/01/18-11/30/20 (no cost extension)

WU Diabetes Research Center Pilot and Feasibility Award (SubAward:**Powers, PI**)

Alternate Biomarkers for Better Management of Diabetes During Pregnancy and Prediction of Neonatal Complications in Pregnant Women with Diabetes

\$95,000

b. Non-governmental

- Summer Stipend, 1995, summer salary
- Faculty Development Grant, 1996, summer salary
- Mentor Protégé Scholarship Grants, 1998, 1999, 2000, 2003, 2006, 2010, 2011, 2012
\$2000 each
- Merck-AAAS Undergraduate Science Research Program
2003-2006
PI Marina Koether, Co-PI **J. Powers**
\$60,000

Current

a. Governmental

- NIH/NIDDK 2P30DK056341-21 (Klein, PI)
04/2021 – 03/2026
Nutrition Obesity Research Center Core
\$75,270 (Dr. Powers Carson's portion)
- NIH P30DK020579 (Semenkovich, PI)
12/2022 - 11/2027
Diabetes Research Center
\$1,090,133 Annual Direct Costs (Dr. Powers Carson's portion)

TRAINING / MENTEE RECORD:

Past Trainees / Mentees

1996-2014 Mentored 39 undergraduates in laboratory research projects

2017 NIDDK Summer Medical Student Research Program in Diabetes and Obesity
Mason Young

University of Arkansas for Medical Sciences, College of Medicine

2018 NIDDK Summer Medical Student Research Program in Diabetes and Obesity

Kiyah Anderson, MD

University of Tennessee graduate

Conference Abstracts:

Selected Research Presentations: 28 with student co-authors

1. **Powers JL**, May SW. Structural requirements for uptake at the cocaine-sensitive site of the adrenal medullary chromaffin cell. Medicinal Chemistry Division of the American Chemical Society, Washington, D. C., August 1992.
2. Jain SS, **Powers JL**, Tran C, Chabayta R, Bevilacqua VLH. Biochemistry I Lab Project: Development of protein assay experiments using a microplate photometer and investigation of protein quaternary structure using electrophoresis. 221st ACS National Meeting, San Diego, CA, April 2001 and at the Southeastern Regional Undergraduate Research Conference—SURC 2001— at Georgia Southern University, Statesboro, GA. April 2001.
3. **Powers JL**, Tran C, Jain SS, Chabayta R, Bevilacqua VLH. Using a microplate photometer for spectroscopy-based experiments in a student biochemistry lab. 224th National American Chemical Society Meeting, Boston, MA, August 2002.
4. Andrews CS, St. Antoine CC, **Powers JL**. Examining protein quaternary structure in an undergraduate biochemistry laboratory. Poster Presentations at Georgia Academy of Science, March 2003 AND 8th Annual KSU Symposium of Student Scholars, April 2003. Podium Presentation at Southeastern Undergraduate Research Conference (SURC-03), Kennesaw State University, Kennesaw, GA, April 2003.
5. **Powers JL**, Kiesman N, Tran C, Jain S, Brown J, Bevilacqua VLH. Use of a microplate reader for protein assays and a fixed-time enzyme kinetics assay. Poster # 800.15 at Experimental Biology 2005, San Diego, CA, April 2005.
6. Imarhia K, Clark M, Islam N, **Powers J**. Optimization of a competitive ELISA to detect digoxin in a biochemistry undergraduate laboratory. Herty Memorial Undergraduate Research Symposium, Spelman University, Atlanta, GA, March 2008. Also presented at the 13th Annual Symposium of Student Scholars, Kennesaw State University, Kennesaw, GA, April 2008.
7. **Powers J**, Kim J, Oso D, Tulachan S, Przeluska J, Jenkins P, Walden S. Expression of ABCB1 in the human adrenocortical cell line H295R. Experimental Biology 2012, San Diego, CA, April 2012.
8. Raymond C, **Powers J**. ABCB1 expression in adrenocortical cells is uniquely regulated compared to other cell types. 18th Annual Symposium of Student Scholars, Kennesaw State University, Kennesaw, GA, April 2013 and accepted for Experimental Biology 2013, Boston, MA, April 2013. Abstract published in the FASEB Journal 2013: 27: 816.3.
9. **Powers JL**, Melis R, Malmberg E, Johnson-Davis K, Buys S, Lyon E, McMillin GA. Impact of multiple CYP variants on tamoxifen metabolite concentrations. 135th Meeting of the ACS, Salt Lake City, UT, May 2015 and at Lab Medicine 2015, Univ. of Minnesota, Minneapolis, MN, May 2015. Abstract published in Ann Clin Lab Sci, July-August 2015: 45: 462.
10. **Powers JL**, Strathmann FG, Straseski JA. Screen with reflex to better test utilization: A cost analysis of thyroglobulin testing strategies. 2015 Annual Meeting of the AACC, Atlanta, GA, July 2015. Selected for oral presentation and at Lab Solutions Summit: Value-based Clinical Lab Models, AACC Virtual Conference, September 2015.
11. **Powers, JL**. Genotype-Phenotype Associations for Low Glucose-6-Phosphate Dehydrogenase Activity in Red Blood Cells, Academy of Clinical Laboratory Physicians and Scientists (ACLPS), Birmingham, AL, June 2016.
12. **Powers JL**, Rasmussen NN, Hurst D, Strathmann FG. Up in smoke: Uncovering a lack of evidence for proton pump inhibitors as a source of THC immunoassay false positives. AAAC Conference, Philadelphia, PA, July 2016.
